Cosy Accommodation for Four

Stables Cottage comfortably sleeps up to four guests across two bedrooms: a beautiful double room on the ground floor and a charming twin room upstairs. Access to the upstairs bedroom is via a unique 'galley' staircase, which is very steep with shallow treads. This original feature needs descending backwards! Please note: the staircase may not be suitable for those with mobility challenges.

Spacious and Characterful Interiors

The Stables is accessed by a sliding door taking you straight into the dining/kitchen area. The kitchen is spacious and fully equipped with a dining table that comfortably seats four. The large bathroom is off the downstairs hallway and has a full size bath as well as a separate shower cubicle. The cosy lounge has a wealth of exposed stone walls, comfortable sofa's, large TV and views of the golf course. (Please note, the log burner is for display purposes only).

The main bedroom is off the sitting room and also has exposed stone walls. There's a king size bed, and plenty of storage including a wardrobe and a TV.
